European Market Comments

The **traditional** market remained in the familiar ranges as activity remains restricted to routine business and the fulfilment of contracts. There continues to be mild downward pressure on prices for technical grades.

In the meantime there are reports that producers in both the Czech Republic and Slovakia have shut down for a technical overhaul while one of the UK fuel ethanol producers continues to be in an extended maintenance period.

Fuel ethanol prices moved higher in the latest week as support proved to be solid at around EUR460. February deliveries were assessed at EUR460-465 per m³, up EUR10. March gained up to EUR5 to EUR465-470 and April was put at EUR470-475, also up EUR5.

Shipping interest was reported for 2 mln litres of ethanol from Lillebonne to La Pallice (both France), 9 mln from ARA to the Thames (United Kingdom) and 3.5 mln from Tees to Grangemouth, both UK, all for mid-February, as well as for up to 8 mln from Tees or ARA to Tarragona, Spain for late February.

European Market Fundamentals

European Union - Ethanol imports fell to historical lows in 2017 reaching no more than 500 mln litres against 600 mln in 2016. This was the sixth year of falling imports in a row.

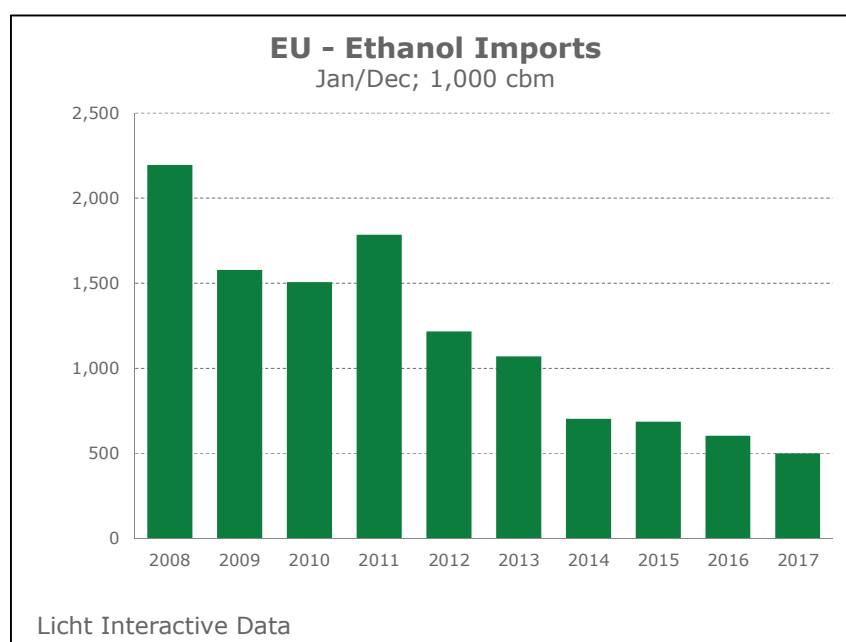

The bloc imported somewhat more than 42 mln litres in December against 37 mln in November and 21 mln in December 2016.

For a couple of years now Eurostat has not been supplying full data-sets on the origins of imports.

According to our calculations, the largest origins in 2017 were Pakistan with 158 mln litres (80 mln), the US with 149 mln litres (44 mln) and Guatemala with 80 mln litres (148 mln).

Ethanol exports reached a three year high of almost 230 mln litres. This compares with 190 mln in 2016.

Major countries of destination were Switzerland (68 ml litres), followed by the USA (23 mln litres).

Brazilian Market Comments

The market ended mixed in the latest week with good demand bolstering prices for hydrous grades while the steady flow of imports put anhydrous material under pressure.

Hydrous ethanol was offered at BRL2,260-2,270 per cubic metre (exw; taxes included), up BRL20-30 on the week. Offers for anhydrous grades were BRL2,080-2,120, down BRL10-20.

US Market Comments

Futures prices for ethanol in Chicago were pulled higher by the rebound in gasoline prices and a bullish EIA report. The front-month February contract settled at \$1.484 per gallon, up from \$1.403 last week.

In **spot** market, prompt deliveries at the Argo terminal in the **Chicago** area traded at \$1.48 per gallon, up 9 cents on the week. Prompt delivered ethanol by barge in the **New York Harbour** gained the same to \$1.58. On the **West Coast** ethanol prices climbed 5 cents to \$1.70.

United States - Fuel ethanol production in the week to February 9, 2018 averaged 1.016 mln barrels per day (bpd), said the Energy Information Administration (EIA), a five-week low, down from 1.057 mln in the prior week and 1.040 mln one year earlier.

Imports remained at nil for the tenth consecutive week.

Refiner and blender net input averaged 882,000 bpd, a seven-week high, against 868,000 in the prior week and 847,000 one year earlier. Based on the amount of motor gasoline supplied, the average blending ratio was 9.74% vol., against 9.54% in the prior week and 10.06% one year earlier.

Stocks fell on the week to a four-week low of 22.9 mln barrels from 23.5 mln. The bulk of the w/w decline came from the East Coast (7.6 mln barrels vs 8.0 mln) and the Midwest (8.2 mln vs 8.4 mln).

Guatemala - The ethanol export season is quickly gathering pace.

Over the next couple of weeks, a total of six tankers are scheduled to load product at the Port of Quetzal (Navig8 Sirius, Fairchem Filly (for South Korea), Sea Ploeg (for Puerto Rico), MTM Hamburg (South Korea), Celsius Birdie, Jo Spirit (Puerto Rico). This compares with four vessels between the start of the sugarcane crushing season in November and the end of January.

Exports in November were somewhat lower at 12.8 mln litres against 13.5 mln the prior year. However, for the full year a similar export volume to that of 2016/17 is expected (204 mln litres).

The country's exports mostly go the EU, the US (Puerto Rico), Mexico and South Korea.

SUGAR AND ETHANOL MARKETS OUTLOOK TO 2030

This comprehensive report provides a detailed outlook for the world sugar and ethanol markets from now to 2030, with copious statistics and charts throughout, including fuel ethanol standards. Countries and territories fully covered include the EU, Russia, Brazil, the US, Canada, Mexico, Asia, Latin America, Africa, and Australia. The report goes on to describe in rich detail the varied corporate strategies adopted for sugar and ethanol. This is followed by an overview of the prospects and challenges ahead for the development and commercialisation of cellulosic ethanol and other advanced biofuels in the US, Europe, Brazil, and China. Also fully surveyed are the key global beverage and industrial ethanol markets.

WORLD MOLASSES & FEED INGREDIENTS REPORT

Reporting, analysis and statistics on molasses and special feed ingredients, including molasses and beet pulp, citrus pulp, corn gluten feed and meal, tapioca and DDGS. Prices and trade statistics *plus* regular estimates of world molasses production. 24 issues online. **PLUS** – Licht Interactive Data

INTERNATIONAL SUGAR & SWEETENER REPORT

Reports on world sugar and sweetener market prices, trade, production, processing, consumption, stocks, company news, plus regular sugar balance and production estimates. 36 issues *plus* daily sugar market report online. **PLUS** – Licht Interactive Data

INTERNATIONAL COFFEE REPORT

Reports on world prices, markets, trade, production, stocks and consumption, plus regular estimates of coffee production and the world coffee balance. 24 issues *plus* daily coffee market report online. **PLUS** – Licht Interactive Data

WORLD ETHANOL & BIOFUELS REPORT

News, analysis and statistics on fuel ethanol, biodiesel, industrial and beverage alcohol. Prices and trade statistics plus regular estimates of world ethanol and biodiesel production. 24 issues *plus* daily online news. **PLUS** – Licht Interactive Data

WORLD ETHANOL PRICE REPORT

Contract and spot prices for fuel, beverage, industrial and pharmaceutical grades as well as concise market comment for all major ethanol producing countries worldwide. Weekly by e-mail. **PLUS** – F.O. Licht's Ask the Analyst Service

WORLD BIODIESEL PRICE REPORT

Biodiesel, glycerine and feedstock prices for Europe, the Americas and Asia and market comment from F.O. Licht analysts. Weekly by e-mail. **PLUS** – F.O. Licht's Ask the Analyst Service

LICHT INTERACTIVE DATA

Access and download the latest data that affect your business whenever you need in just two simple clicks. Including trade statistics, production/consumption and price data, balances for over 180 countries and over 10 years. Also included is a Plants & Projects section with worldwide production capacities for the products of your interest. Covers **Ethanol, Sugar, Grains, Coffee, Molasses & Feed Ingredients and Renewable Chemicals**
